## A Guaranteed Income!

There are investments and investments. Stocks and bonds are subject to so many and such diverse influences that it is never possible to say with certainty that they will not depreciate in value

Certain securities are, of course, far more desirable than others, and one can reasonably count on their stability.

There is one security, however, that we can always recommend without any reservation whatever Its market value never fluctuates. The interest is paid regularly and the principal is always repaid as promised.

The 3-year-old son of Mr. and Mrs. Hammie Almond, whose death was announced in these columns last week, is greatly mourned by his family.

Was a little treasure once,
Was our joy and pride,
We loved him—ah! perhaps too well,
But he sleeps and died.
Left a mark within our dwelling,
Long are our hearts today,
For the one we loved so dearly
Has forever passed away.

### To The Women of Virginia

The majority of the women of this state have been opposed to the extension of suffrage. Notwithstanding this opposition of men and women of Virginia the action of people of other states has imposed the burden of woman suffrage upon the Commonwealth. What-ever has been our attitude, in the past, individually and collectively, we are now confronted with a new situation, and our duty is plain—Register and vote.

Notwithstanding the fact that the prices on most articles of food and wearing apparel have been reduced, the prices on some makes of shoes have been increased 25 per cent over the prices of a year ago; and this in face of the further fact that the price of raw hides has fallen from about 40 cents a pound to 10 cents. There's evidently something crooked somewhere.

### Hixburg

Quite a number of our citizens recently requested me to inquire, through the Hixburg locals, as to what had become of the proposed bridge across the Appomattox at a point known as the John Marshall ford, and that they were much surprised at the long delay, the order having been passed by our County Fathers over a year ago. And in connection I will mention a case of dire necessity for this bridge to have been erected before now: Only a short time ago Dr. Lickin was called to attend a special occasion—between this place and Hollywood—the hour late, the night very dark and rainy. This ever-ready and most willing servant of the people was caught in this dangerous place between the creek and river and for hours he was in unknown peril in trying to reach the residence of Mr. E. P. Sears, by going up the flats between the streams, the ground covered with water, and he drove within four or five feet for over 500 yards of a ditch about eleven feet deep. Now, in case of an accident, the burden of responsibility would rest heavily on some one. Let's get busy and get the side-track clear so that this bridge can come on in order as it stands on the calendar; we ask for nothing more.

Mr. Lloyd Coleman had a very narrow escape from being drowned on Friday night of last week. When he left the church meeting he said he had no idea of the creek being past fording, and, running his car at a good speed, he plunged into near the middle of the stream and had to swim out. It was a thrilling experience, as he relates it.

Our meeting closed on last Sunday night, after one week of the most earnest preaching by the Rev. Mr. Poole, of Spring Creek. A number professed faith in Christ and will be baptized this, Wednesday morning, in the river near the home of W. L. Ford.

### A "Pig" in the Bed.

Many words in everyday use have quite another meaning in remote corners of the country. An auction is a dirty or untidy place; and some rustics, when unwell, tell you that they feel "comical." A pig or piggy is a hot-water bottle—hence the story of the traveler who returned to civilization with a tale that in Northumberland the people slept with a pig in the bed for warmth.—London Express.

**Catarrhal Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

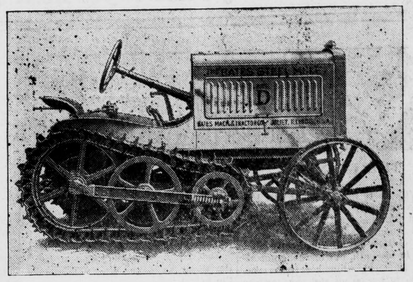
## Every Inch of the Bates Steel Mule is Thoroughbred



The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is ar cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There isn't a part that is'nt time-tried and tested. There is'nt a part that experience has'nt dictated the shape and size of; and in it all there is'nt one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.
